

MyHOME_Suite**Version history**

Version: 2.0.111	Date: 20th March 2015
Optimizations and minor bug fixing	
New integrated products programming	
-	
New products managed by virtual configuration	
-	

Version: 2.0.104	Date: 6th February 2015
Fixed possible problem opening some configurations file made with version 1.x	
New integrated products programming	
-	
New products managed by virtual configuration	
-	

Version: 2.0.99	Date: 14th January 2015
Graphics interface: - Main page with definition of type of project (MyHome or Hotel) - A single view for virtual and product programming MyHome system: - Fixed some virtual configuration problem with SCS sensors - Several minor improvements and bug fixing Hotel system: - Management of a complete Hotel project (single room files generated with version 1.4.21 or previous of MyHome_Suite are not supported) - Management of project with more than 100 rooms (require F458 or 003599) - Added up to 10 custom contacts for each MH201 (require MH201 version 2.0 and Hotel Supervision version 1.2) - Improvement of MH201 firmware updating - Several minor improvements and bug fixing Others: - Correction of several translations - Improvement in performance	

New integrated products programming	
Hotel IP Server: F458, 003599 Scenario programmer: MH202 Basic Gateway: F455, 003594 (only firmware update) Classe 100 X12B: 344602 (only firmware update) Classe 300 V13E/M: 344612, 344613, 344622 (only firmware update)	
New products managed by virtual configuration	
-	

Version: 1.4.21	Date: 30th July 2014
Fixed a problem with delay setting in fan coil modality. Thermostats: H4691, LN4691, 067459, 64170 Fixed a problem during the opening of an existing project Fixed possible interaction problem with system firewall Improvement of the catalogue search filter Improvement of the USB communication. Touch screen: HC4690, HS4690, HD4690, 573962, 573963, 067285, H4890, LN4890, AM4890, 573958, 067292, 078479 Correction of some German translations Added missed translations in different languages	
New integrated products programming	
-	
New products managed by virtual configuration	
-	

Version: 1.3.32	Date: 10th March 2014
Corrected some translations New languages in "functions help" Minor bug fixing	
New integrated products programming	
IR Emitter: 3456, 088301	
New products managed by virtual configuration	
Key card switch: 572235	

Version: 1.3.24	Date: 11th November 2013
Minor bug fixing	
New integrated products programming	
IP scenario module: MH201	
New products managed by virtual configuration	
Hotel indicator DND-MUR bus: H4650, LN4650, 067590 Hotel reader DND-MUR bus: H4651, LN4651, 067591 DND-MUR command: H4653, LN4653,067593 Command 8 buttons: H4652, LN4652, 067592 Thermostat with display: H4691, LN4691, 067459 KeyCard reader RFID: H4648, 572736, 572236, 067566, 078480 KeyCard reader: H4649, 572735, 067565 Touch controls: 573912, 573913, 574091, 574591, HC/HS/HD4657M4, HC/HS4657M3, HD4657M3 Temperature control actuators: 003517, 003518, 003519, F430R3V10, F430R8, F430V10	

Version: 1.0.45	Date: 10th October 2013
First release
